

A person stands in the middle of a body of water, looking up at a brilliant, vertical beam of light that descends from a bright sun or star in a deep blue sky. The light beam is composed of many fine rays, creating a rainbow-like spectrum of colors. The person's silhouette is visible against the light. The water reflects the light, creating a shimmering path that leads from the person towards the viewer.

Who Created Me? And Why?

Everything indicates the existence of the Creator.

**Who is the Creator of the heavens,
the earth, and the magnificent
beings within them—entities that
cannot be fully comprehended?**

Who designed this complex, fine-tuned
system that exists in the heavens and the
earth?

Who created humans, endowed them with
senses like hearing, sight, and cognition,
and enabled them to learn and recognize
the facts?

How do you explain this meticulous system that functions in the organs of your body and the bodies of other living beings? And who created them?

How is this vast universe structured and maintained by its perfectly calibrated laws that have existed since the beginning of time?

Who established the mechanisms that control life and death, the procreation of creatures, day and night, the varying seasons, etc, in this world?

Did the universe create itself? Or was it made out of nothing at all? Or did it just happen to exist by coincidence?

★ Why do humans believe in the existence of things that they cannot see, such as perception, mind, spirit, feelings, and love? Isn't it because they observe their effects? How can humans deny the existence of a Creator of this huge universe while they witness the evidence of His existence through His creations, His work, and His mercy?!

★ No one will accept the story that a house came into being without someone constructing it! Or that a mansion just appeared out of nothing! How come some people believe the assertion that there is no Creator for this vast cosmos?! How come a reasonable person accepts the idea that this perfectly balanced cosmos came into being by coincidence?

To emphasize these facts, Allah Almighty says

﴿أَمْ خُلِقُوا مِنْ غَيْرِ شَيْءٍ أَمْ هُمْ الْخَالِقُونَ،
أَمْ خَلَقُوا السَّمَوَاتِ وَالْأَرْضَ بَلْ لَا يُوقِنُونَ﴾.
[٣٢: ٥٢]

﴿Were they created by none, or were they the creators [of themselves]?﴾
[52: 32].
